The Red Key

The children and Talon had learned so much! The Key Maker had given them answers to what a Super Student does to be good. They were feeling that the Super Student Club was going to happen.

The fourth key was red. Keith grabbed the key. It was very light and easy to pick up. He placed it in the keyhole and started to turn it, but before he finished turning the key, he noticed some writing on the box just above the keyhole.

12 TIPS FOR RAISING YOUR GRADES

1. **OBEY.** You will have many people who will be your boss. Learning to obey people who are in authority over you is very important in school and in life.
2. **RAISE YOUR HAND.** Raising your hand to ask and answer questions helps the teacher know you are listening and trying to learn.
3. **THINK ALONG WITH THE SPEAKER.** When you are in class you can learn a tremendous amount from your classmates when they speak.
4. **BE A GOOD LISTENER.** Look at people while they're talking to you. Pay attention to what they say. Repeat what they say quietly in your mind.
5. **WATCH YOUR BODY LANGUAGE!** Your eyes and the way you hold your body give your feelings away. Sit up and show respect when someone is talking to you in class.
6. **BE PREPARED.** You can't work if you do not have the tools to finish the job. Being prepared shows that you care. Have all your materials.
7. **GIVE YOUR BEST!** Effort is very important to your teacher and to success in school. The harder you try, the more likely you are to succeed.
8. **WATCH YOUR BEHAVIOR WITH OTHERS.** You must be able to work out problems with others. Fighting or arguing in school will hurt you as a student.
9. **PROJECT A POSITIVE ATTITUDE.** People like to be around a person who is upbeat and happy. Count your blessings. It will make you happy.
10. **LEARN TO TAKE NOTES.** One of the best tools you can have is learning how to take notes as your teacher speaks. It will help with your outlining and thinking skills.
11. **STUDY AT HOME ON A REGULAR BASIS.** You learn best in small repetitive ways. Going over your work every night in short sessions is best.
12. **FIGHT BEING LAZY!** All of us would rather play than work. Make yourself work first, play second.
